THE COMMUNITY COLLEGE GRADUATE FOLLOW-UP SURVEY REPORT

1991

DEPARTMENT OF
ADVANCED EDUCATION AND JOB TRAINING

HONOURABLE RONALD C. GIFFIN
MINISTER

A.F. PINARD
DEPUTY MINISTER

March 1992

ADDENDUM

Please note that the Department of Advanced Education and Job Training and the former Department of Education have merged to form the new Nova Scotia Department of Education.

In this Report, where reference has been made to the Planning and Evaluation Division, Department of Advanced Education and Job Training, it is now the Planning and Research Division, Department of Education.

Nova Scotia

Department of Advanced Education and Job Training

Office of the Minister

5th Floor, Founders Square

Fax 424-0511

Our file no.

DEAR READER:

I am pleased to release the seventh annual Graduate Follow-up Survey Report, summarizing employment results of 1990 Community College graduates one year after graduation. This Report was prepared by the Department's Planning and Evaluation Division with the assistance of our training institutions.

An important purpose of the Survey is to provide a better understanding of the labour market experience of recent Community College graduates. Relevant labour market information of this kind is useful to students who are making program choices to achieve their career objectives. This information also serves as a useful tool for counsellors and educators advising individuals considering career decisions.

I wish to extend my sincere thanks to all graduates who completed the Survey questionnaire. The information which they have contributed will help to continue to improve the Community College system.

Yours very truly,

RONALD C. GIFFIN, Q.C.
Minister of Advanced Education
and Job Training

INTRODUCTION

INTRODUCTION

BACKGROUND

The Community College Graduate Follow-up Survey Report, 1991 was compiled by the Nova Scotia Department of Advanced Education and Job Training, Planning and Evaluation Division. It presents findings from the 1991 Graduate Follow-up Survey. All students who graduated from Nova Scotia's Community College, its associate institutions, Kingstec, Cobetec and Memorial High, as well as the Trades and Technical Faculty of the University College of Cape Breton in 1990 were surveyed approximately one year after completing training to determine their employment status.

SCOPE

The 1991 Survey covered the population of 1990 graduates from 20 of Nova Scotia's training institutions, consisting of the16 Campuses of the N.S. Community College, its associate institutions, Kingstec, Cobetec, and Memorial High, and the University College of Cape Breton (trades and technical programs). A complete list of these institutions is found in Section II of this report. People excluded from the Graduate Follow-up Survey included students who dropped out or failed to complete a program and graduates who were unable to be located.

Information about the employment status of graduates was gathered through the survey for the reference week of June 23 - June 29, 1991, which is approximately one year after graduation. Employment levels change over time, therefore, it is important to keep in mind that **the survey findings show the outcomes of graduates for one point in time, during the week of June 23 - June 29, 1991.**

METHODOLOGY

The survey methodology involved a self-completion questionnaire (see Appendix C) mailed out to graduates during the first week of July, 1991. Reminder cards were also sent at two different periods to prompt people to return their questionnaire if they had not already done so. After that, graduates who still had not responded to the survey were contacted by telephone and asked to mail back their questionnaire. The institutions whose graduates were surveyed were instrumental in telephoning nonrespondents and their assistance is gratefully acknowledged by the Planning and Evaluation Division. With their assistance a high rate of response was attained. Of the 3,430 community college graduates of 1990, 2,287 responded to the survey, yielding a response rate of 72.4% when adjusted for undeliverable mail.

The very high overall response rate and consistent survey methodology resulted in accurate and reliable data. However, in order to interpret and understand the individual program statistics, **readers are advised to carefully review the User's Guide in the PROGRAM STATISTICS section of this report.**

REPORT ORGANIZATION

The report is comprised of five sections. The Introduction is followed by Section II which lists the institutions whose graduates were surveyed. Readers are advised to contact individual institutions if they are interested in obtaining information on programs which is not included in this report.

In Section III, the general findings of the Graduate Follow-up Survey regarding all respondents are summarized.

Section IV of the report provides employment and unemployment rates for each program in order to facilitate comparison to unemployment rates which are reported monthly by Statistics Canada. The first table lists employment and unemployment rates by program (ordered alphabetically) based on responses of 1990 community college graduates to the 1991 Graduate Follow-up Survey. The second table provides rates based on the responses of 1989 community college graduates to the 1990 Graduate Follow-up Survey. This table has been included to allow for a year-to-year comparison regarding employment and unemployment rates by program. Both tables include only those programs which met the 90% ± 15% confidence level.

Section V provides a User's Guide followed by information on the outcomes of respondents for each program using a standard one-page table format. It is important to carefully review the User's Guide to gain a clear understanding of the program statistics presented. The Guide includes a discussion of the use of confidence intervals for programs with a low response rate and

Table 5.0 lists those programs that did not meet the 90%± 15% confidence level. (Program statistics for programs failing to meet the 90% ± 15% confidence level are presented in Appendix D.) An overview of definitions, survey terminology, methodology used to compile results, and the presentation format is also included together with general guidelines regarding the interpretation of survey results. The one-page profiles of program statistics which follow the User's Guide contain the following survey results by program: labour market outcomes of all respondents; distribution of employment by type of employment (full time/part time, permanent/temporary); total employed, unemployed and not in the labour force; distribution of employment by location; most frequent wage levels and occupations and industries of employment.

Four appendices are attached to this report. Appendix A outlines the Major Occupational Groups of the Canadian Classification and Dictionary of Occupations used for coding purposes in the survey. These groups are used to indicate most frequent occupational categories in the Program Statistics section. Appendix B outlines the Standard Industrial Classification Industry Divisions also used for coding purposes in the Survey. Again, these divisions are used to indicate most frequent industries of employment in the Program Statistics section. Appendix C is a copy of the questionnaire used to survey 1990 community college graduates. Lastly, Appendix D discusses the calculation and use of confidence intervals and provides the statistics for those programs that failed to meet the 90% ± 15% confidence level.

II

LIST OF INSTITUTIONS

LIST OF INSTITUTIONS

The statistics contained in this report are categorized by program, as indicated in the program tables in Section V. In many cases programs were offered at more than one institution. Readers who are interested in obtaining information about individual programs and specific institutions are advised to contact the institution.

The institutions listed below consist of the Campuses of the Nova Scotia Community College (N.S.C.C.) and its associates Cobetec, Kingstec and Memorial High School, and the Faculty of Trades and Technology, University College of Cape Breton.

Institution and Address	Phone	Principal	Counsellor
N.S.C.C. **Annapolis Campus** P.O. Box 940 295 Commercial Street Middleton, N.S. B0S 1P0	825-3491	Mr. John Jacques	Mr. James R. Norton

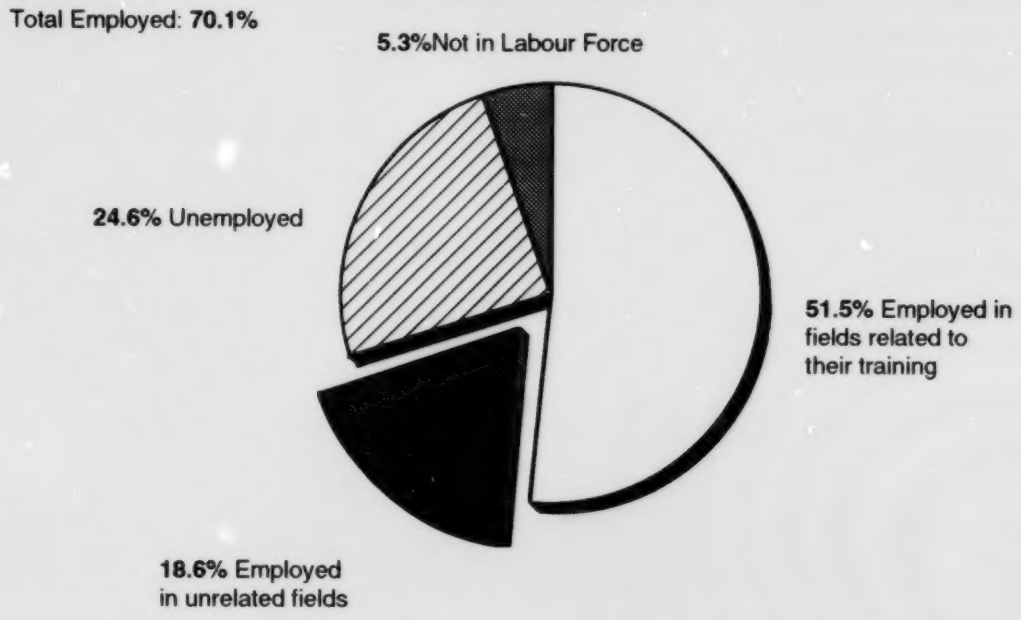
OVERVIEW OF SURVEY RESULTS

OVERVIEW OF SURVEY RESULTS

FIGURE 3.0

SUMMARY OF OUTCOMES— 1991 GRADUATE FOLLOW-UP SURVEY



Total Employed: 70.1%
5.3%Not in Labour Force
24.6% Unemployed
51.5% Employed in fields related to their training
18.6% Employed in unrelated fields

EMPLOYMENT RESULTS

Analysis of data collected from the 1991 Graduate Follow-up Survey indicated that 70.1% of the 1990 graduates surveyed were employed during the week of June 23 - June 29, 1991. Survey results also showed the type of employment graduates obtained. Among all the respondents 51.5% had jobs related to their training and 18.6% were employed in jobs which they considered to be unrelated to their training.

UNEMPLOYED OR NOT IN THE LABOUR FORCE

The survey results indicated that 24.6% of the respondents were unemployed during the week of June 23 - June 29, 1991, and the remaining 5.3% were not in the labour force at that time. The reasons for respondents not being in the labour force are summarized in Table 3.1.

TABLE 3.1

REASONS WHY RESPONDENTS WERE NOT IN THE LABOUR FORCE

	Number #	Percentage %
Attending school	39	32.5
Illness or disability	24	20.0
Discouraged worker	9	7.5
Personal or family responsibility	48	40.0
Total	**120**	**100.0**

IV

EMPLOYMENT AND UNEMPLOYMENT RATES

EMPLOYMENT AND UNEMPLOYMENT RATES

Tables 4.0 and 4.1 list employment and unemployment rates which have been calculated from the survey results utilizing the concept of unemployment that Statistics Canada uses for reporting the official unemployment rate. Through the Labour Force Survey, Statistics Canada determines unemployment rates for Canada and regions as well as various age groups on a monthly basis. For example, the youth (15-24 years) unemployment rate for Nova Scotia was reported as 17.7% in June 1991 and 18.4% in July 1991 by Statistics Canada. This method of calculation involves only the people in the labour force and it is outlined below with reference to the Accounting program statistics from the 1991 Graduate Follow-up Survey. This calculation is different from percentages employed and unemployed given in the Program Statistics (Section V) of the report where the proportions are ratios calculated on the basis of all respondents including those who were not in the labour force. The ratio method of calculation is useful from a program perspective in showing outcomes of all survey respondents.

Employment and unemployment rates in Tables 4.0 and 4.1 are calculated on the basis of the number of people in the labour force. Those in the labour force are defined as people who are employed or not working but seeking employment. For example, in Accounting, 65 were employed and 37 were unemployed, giving a total of 102 (65+37) who were in the labour force. The employment and unemployment rates for Accounting were 63.7% and 36.3% respectively. (See formulas below.)

These employment and unemployment rates have been provided for each program to facilitate comparison of labour force statistics reported by Statistics Canada. Table 4.0 lists employment and unemployment rates based on the responses of 1990 community college graduates to the 1991 Graduate Follow-up Survey. Additionally, Table 4.1 provides employment and unemployment rates based on responses of 1989 community college graduates to the 1990 Graduate Follow-up Survey.

$$\text{Employment Rate} = \frac{\text{\# employed}}{\text{\# In Labour Force}} \times 100 = \frac{65}{(65+37)} \times 100 = 63.7\%$$

$$\text{Unemployment Rate} = \frac{\text{\# unemployed}}{\text{\# In Labour Force}} \times 100 = \frac{37}{(65+37)} \times 100 = 36.3\%$$

ALL PROGRAMS	**1521**	**80.5**	**369**	**19.5**

*Note: Employment and unemployment rates shown in the above table have only been provided for programs which meet the 90% ±15% confidence level.

V

PROGRAM STATISTICS

PROGRAM STATISTICS

USER'S GUIDE

The User's Guide explains the terms and statistics presented in this report. Each page of the Program Statistics section contains a statistical summary for a program. All pages follow the same format. As an example, Accounting (presented on the next page) is used in the explanation which follows.

However, before beginning detailed explanations, several general observations should be noted regarding the use of survey statistics. First, employment levels change over time; the information contained in this report describes the status of graduates during the week of June 23-June 29, 1991. Second, while the overall survey response rate of 72.4 percent, and the overall number of responses, 2,287, are excellent for a mail out survey, some individual programs may have a lower response rate, and may involve small numbers. The conditions of the survey allow for high statistical accuracy in most cases despite the occurrence of small-sized samples in several programs. This is because a high proportion of the program population is usually contained in the sample (number of respondents). However, in order to alleviate potential problems in interpreting statistics for programs which do have small numbers of graduates and/or low response rates, only statistics for those programs which fall within a 90% ± 15% confidence level are presented in the Program Statistics section of this report. This means that nine times out of ten, the actual percentage for employment is within 15 percentage points of the employment proportion calculated on the basis of survey responses. Of the 115 community college programs for which data was compiled from the survey results, 35 did not fall within the 90% ± 15% confidence level. These programs, together with their locations are provided in Table 5.0. Statistics for these programs are presented in Appendix D.

Finally, it is important that persons using the information in the Program Statistics section use judgement in their interpretation of the results. The tables which follow are only one tool which readers may utilize to obtain information about community college programs and employment.

ACCOUNTING

Program Location: Annapolis, Burridge, Hants, I.W. Akerley, Kingstec, Lunenburg, Shelburne, Strait

Survey Population: 163 **Respondents:** 109 **Response Rate:** 66.9%

Most Frequent Industries of Employment:		
Retail Trade	24	(36.9)
Manufacturing	12	(18.5)
Accommodation, Food and Beverage	5	(7.7)

DEFINITIONS

Program Location lists the institution or institutions which had graduates from the program (named at the top of the page) in the 1990 academic year. The Accounting program for example, had graduates from Annapolis, Burridge, Hants, I.W. Akerley, Kingstec, Lunenburg, Shelburne, and Strait Campuses.

Survey Population is the number of people who graduated from the program in 1990. For Accounting, the survey population was 163.

Respondents are the number of graduates from the program who answered the questionnaire. Accounting had 109 respondents.

Response Rate is the percentage of the survey population responding to the questionnaire. The response rate for Accounting was 66.9%. It can be expressed as:

$$\frac{\text{Number of respondents}}{\text{survey population}} \times 100 = \frac{109}{163} \times 100 = 66.9\%$$

Labour Market Outcomes shows the status of all program respondents during the week of June 23 - June 29, 1991. The numbers are reported in both percentages (in parentheses) and actual figures. **The percentages are expressed in terms of the total respondents.** For example, in Accounting the 59.6% of employed respondents represents 65 out of the total respondents (109). **Employed** respondents are defined as those who are working, or holding a job from which they are temporarily absent due to illness, vacation, labour dispute, etc. The **unemployed** are those who are not working, but seeking work. Persons **not in the labour force** are neither working nor seeking employment. They may be out of the labour force for a variety of reasons including attending school, being a homemaker or due to illness or disability.

Summary of Respondents' Outcomes outlines the type of employment graduates obtained approximately one year after graduation, as well as the proportions unemployed and not in the labour force. Numbers are reported in both percentages (in parentheses) and actual figures. All percentages in this section are expressed in terms of the number of respondents. For example, 33.9% of respondents were unemployed in the Accounting program, that is 37 out of 109. Type of employment is indicated in a matrix with reference to (1) **employment category** and (2) **relation of employment to training.** This allows the user to determine specifically what type of employment graduates obtained. For example, it is seen that in Accounting 20.2% or 22 graduates were working in full time - permanent employment which is related to training. The categories which are used in the matrix are defined below.

(1) Employment Category

Employment is specified in terms of permanent/ temporary and part time/full time. There are four types of employment categories outlined in the **Summary of Respondents' Outcomes.**

Full Time employment is 30 hours per week or more.

Part Time employment is less than 30 hours duration per week.

Permanent employment has no pre-arranged termination date.

Temporary employment ends at a pre-arranged date (e.g. summer job).

Totals for type of employment are indicated under the third column heading labelled, **"Totals".** In Accounting for example, the total employed in full time - permanent employment is 38 or 34.9%.

(2) Relation of Employment to Training

Relation of employment to training is determined from responses to the survey question: "To what extent do you feel your job was related to the training you received from the institution you graduated from in 1990?" Two categories are identified in the Program Statistics:

Related employment is work which is directly or indirectly related to training. The number of people who responded that their job was "directly related" or "indirectly related" to their training are reported under this category.

Employment not related to training is work which has very little or no relationship to the training received. The number of people who responded that their job was "not related" to training is reported.

Totals for "relation of employment to training" are indicated below each category in the fifth row of numbers which is labelled, **"TOTAL EMPLOYED".** In Accounting for example, 34.9% or 38 were employed in jobs related to training. The last set of figures in this row gives the **TOTAL EMPLOYED** at any type of job. For Accounting, 59.6% or 65 persons were employed at any type of job. As previously

stated, the employed are defined as those who are working or holding a job from which they are temporarily absent due to illness, vacation, labour dispute, etc.

The last two lines of this section give the numbers **UNEMPLOYED** and **NOT IN THE LABOUR FORCE.** The unemployed are those who are not working but are seeking employment. Persons not in the labour force are neither working nor seeking employment. In Accounting, 33.9% or 37 are unemployed and 6.4% or seven are not in the labour force.

ROUNDING NOTE

In some cases percentages in the **"SUMMARY OF RESPONDENTS' OUTCOMES"** may not add up to the totals indicated, due to rounding. All percentages have been rounded to one decimal point. For accuracy, the percentages for totals are calculated from actual number totals rather than adding the rounded percentages.

EMPLOYED RESPONDENTS

In **"CHARACTERISTICS OF EMPLOYED RESPONDENTS"** locations, wage levels, occupational categories and industries of employment are outlined. Again, numbers are reported in percentages (in parentheses) and actual figures. (In some cases numbers may not add up to the total number employed due to missing data.) All percentages in this section are expressed in terms of the number of employed respondents. In Accounting for example, 20.0% or 13 out of the 65 employed graduates are working in the Halifax region of Nova Scotia.

Location of employment by region is outlined with reference to regions of Nova Scotia as well as other parts of Canada when applicable. The definition of the regions are summarized below.

Halifax County–
All of the Halifax Metro region and surrounding county

South West Nova Scotia–
Digby, Lunenburg, Queens, Shelburne and Yarmouth Counties

Annapolis Valley–
Annapolis, Hants, and Kings Counties

North East Nova Scotia–
Antigonish, Colchester, Cumberland, Guysborough and Pictou Counties

Cape Breton–
Cape Breton, Inverness, Richmond and Victoria Counties

Other–
Other provinces of Canada (excluding Nova Scotia), USA and other

Most frequent starting wage levels (per hour) are reported. The questionnaire defines four hourly wage levels: $4.50 to $6.50, $6.51 to $8.50, $8.51 to $10.50, and over $10.50 per hour.

Most frequent occupational categories are indicated next. The occupational categories are the 22 major occupational groups defined in the *Canadian Classification and Dictionary of Occupations*. The occupational groups which are referred to in this document are defined in Appendix A. When applicable, figures for the four most frequent occupational categories of employed graduates are indicated.

Most frequent industries of employment are also indicated for each program. Industries referred to are the industry divisions of the *Standard Industrial Classification* (SIC). The SIC is a guide which defines economic production by groups of producing units or industries engaged in similar types of activity in relation to goods and services. The major industry divisions of the SIC which are referred to in the Program Statistics which follow are defined in Appendix B. When applicable, figures for the four most frequent industries of employment for graduates are indicated.

TABLE 5.0

LIST OF PROGRAMS WHICH DO NOT MEET THE 90% - 15% CONFIDENCE LEVEL

PROGRAM	INSTITUTION
Accounting Technology	I.W. Akerley, University College of Cape Breton
Aircraft Technician (Sheet Metal)	AVTC Metro
Barbering	AVTC Cape Breton
Boat Building	Lunenburg
Business Equipment Technology	Halifax
Civil Technology	University College of Cape Breton
Construction Administration Technology	Institute of Technology
Construction Technology	University College of Cape Breton
Dining Room Service	I.W. Akerley
Drafting-Combined	Lunenburg, Strait
Drafting-Mechanical	Hants, Pictou, Sydney
Electrical Engineering Technology	Institute of Technology
Electrical Trades	Annapolis
Environmental Technology	University College of Cape Breton
Farm Equipment Repair	Cobetec, Kingstec
Graphic Design	Annapolis, Cobetec, Sydney
Horticulture Services	Kingstec
Inventory Control	Strait
Management Technology	University College of Cape Breton
Marine and Industrial Rigging	Nautical Institute
Marine Engineering Cadet	Nautical Institute
Metal Fabricating	AVTC Cape Breton
Navigation Cadet	Nautical Institute
Off Set Printing	Kingstec, Memorial High
Painting and Wood Finishing	Halifax
Petroleum Resources Technology	Institute of Technology
Photography	Halifax
Power Technology	University College of Cape Breton
Radio and TV Broadcasting	Kingstec, Memorial High
Refrigeration and Air Conditioning	Cobetec, Halifax, Sydney
Remote Sensing	College of Geographic Sciences
Retail Management	I.W. Akerley
Retail Meat Cutting	Kingstec
Sheet Metal	Halifax, Sydney
Survey Assistant	College of Geographic Sciences

APPENDIX A

MAJOR OCCUPATIONAL GROUPS OF *THE CANADIAN CLASSIFICATION AND DICTIONARY OF OCCUPATIONS, 1985*

MAJOR OCCUPATIONAL GROUPS OF *THE CANADIAN CLASSIFICATION AND DICTIONARY OF OCCUPATIONS, 1985*

MANAGERIAL, ADMINISTRATIVE AND RELATED OCCUPATIONS

This major group includes occupations concerned with managerial and administrative activities such as: planning, organizing, coordinating, directing, controlling, staffing and formulating, implementing or enforcing policy in government, industry and other organizations. Middle management occupations, managers of chains or establishments, managers of hotel, motel and other accommodation, and occupations closely related to management and administration are included in this major gro

OCCUPATIONS IN NATURAL SCIENCES, ENGINEERING AND MATHEMATICS

This major group includes occupations concerned with research and the practical application of scientific knowledge in the field of physical sciences, including specializations such as chemistry, electricity, electronics, geology, physics, mechanics and meteorology; in life sciences, including specializations such as agriculture, biology and pharmacology; in architecture, engineering, surveying and drafting; in mathematics, statistics, systems analysis and actuarial sciences; and in related technical fields.

OCCUPATIONS IN SOCIAL SCIENCES AND RELATED FIELDS

This major group includes occupations concerned with assisting individuals, families and groups, to solve their social, economic and personal problems; planning and conducting social services to meet the needs of persons in a community; applying principles relating to statute law and its adminstration; organizing, developing and maintaining libraries, archives, museums and art galleries; counselling individuals and groups; and performing other related duties.

OCCUPATIONS IN RELIGION

This major group includes occupations primarily concerned with providing spiritual and moral guidance to members of a religious faith or denomination expounding religious doctrine, and performing other activities associated with the practice of religion.

TEACHING AND RELATED OCCUPATIONS

This major group includes occupations concerned with conducting classes and giving private lessons to instruct students at all levels, undertaking research, advising on teaching methods and instructional aids, organizing teaching activities, and performing related duties.

OCCUPATIONS IN MEDICINE AND HEALTH

This major group includes occupations concerned with preventing and diagnosing human and animal ailments, and prescribing and giving medical and surgical treatment for diseases and illnesses, including dental disorders; giving professional and non-professional nursing care and providing special therapeutic services and providing pharmaceutical, dietary, optical and medical support services.

ARTISTIC, LITERARY, RECREATIONAL AND RELATED OCCUPATIONS

This major group includes occupations concerned with creating and executing artistic works, by sculpturing, painting, drawing, engraving, etching; creating designs for product and interior decoration; taking photographs; conducting and performing musical works and dances; producing, directing and acting in theatrical, motion picture and broadcast production; writing, and other means of informing; entertaining and adding to the pleasure of the public. Included are occupations concerned with gainful employment in athletics, sports and recreation.

CLERICAL AND RELATED OCCUPATIONS

This major group includes occupations concerned with recording, transcribing and typing data; composing correspondence; classifying and filing publications, correspondence and similar material; organizing and recording financial and other data into accounts and quantitative records; paying and receiving money; operating office machines and electronic data-processing equipment; storing, distributing and accounting for stores of materials; receiving clients and providing information; operating telephone switchboards; distributing mail and delivering messages; and performing other clerical activities.

SALES OCCUPATIONS

This major group includes occupations concerned with selling commodities and services, buying commodities for resale, and with conducting wholesale and retail businesses on their own or owners' behalf or in partnership.

SERVICE OCCUPATIONS

This major group includes occupations concerned with providing protection and help in case of fire, crime, accidents, war and other emergencies; providing catering services including cooking, preparing and serving food and beverages; providing accommodation services; maintaining cleanliness in establishments such as hotels, motels, lodging houses, apartment and office buildings; escorting guests and handling baggage; preparing sleeping accommodation; providing funeral arrangements, embalming and cemetery services; cutting and styling hair, and giving beauty treatments to patrons; providing personal services such as caring for children, ushering, and arranging for people's comfort on tours, aboard ships and airplanes; washing, cleaning, drying, pressing and dyeing apparel and textile furnishings; cleaning building interiors and equipment, operating elevators and performing minor maintenance repairs; and providing other related services.

FARMING, HORTICULTURAL AND ANIMAL HUSBANDRY OCCUPATIONS

This major group includes occupations concerned with growing and harvesting crops and plants; raising birds and animals; landscaping and maintaining parks, gardens and grounds; and providing custom agricultural services to farmers.

FISHING, TRAPPING AND RELATED OCCUPATIONS

This major group includes occupations concerned with harvesting fish and other aquatic life from deep sea, coastal and inland waters; breeding and tagging fish; growing oysters; tending lobster pounds; hunting whales and seals; and trapping wild animals.

FORESTRY AND LOGGING OCCUPATIONS

This major group includes occupations concerned with the protection and conservation of forests, the felling of timber, and cutting and removing of logs and other products from forests.

MINING AND QUARRYING INCLUDING OIL AND GAS FIELD OCCUPATIONS

This major group includes occupations concerned with extracting mineral ores, crude petroleum, natural gas, water, coal, potash, and other minerals from underground or open pit mines, quarries, and oil and natural gas fields. This major group also includes occupations concerned with extracting peat moss from peat bogs.

PROCESSING OCCUPATIONS

This major group includes occupations concerned with refining, mixing, compounding, chemically treating, conditioning or similarly working materials such as ores, metals, clay, glass, stone, chemicals, petroleum, rubber, plastic, foods, beverages, paper, wood, textile fibers, hides, pelts and tobacco for direct use; or to produce semi-finished materials for further machining or fabricating; or to produce finished products such as bricks, tiles, processed food, newsprint, lumber, plywood and cloth.

MACHINING AND RELATED OCCUPATIONS

This major group includes occupations concerned with using machines and hand tools to shape or work such materials as metal, plastic, wood, clay, glass or stone by cutting, boring, milling, abrasing, planing, punching, pressing, rolling, engraving, welding or similar means.

PRODUCT FABRICATING, ASSEMBLING AND REPAIRING OCCUPATIONS

This major group includes occupations concerned with using manufactured components and assemblies to produce or repair products such as: automobiles, airplanes, and marine craft; industrial and agricultural machinery; commercial and business machines; domestic appliances; precision instruments; electrical and electronic equipment; rubber and plastic products; garments; footwear; furniture; housewares; and jewelry by assembling them in a factory or in a shop or yard. Activities include: final working, fitting and finishing of parts and assemblies to complete fabrication; and installation and repair of finished products or equipment.

CONSTRUCTION TRADES OCCUPATIONS

This major group includes occupations concerned with constructing, renovating and maintaining buildings and other works such as bridges, highways, railways, airports, electrical power and communication lines, towers, waterways and utility services.

TRANSPORTATION EQUIPMENT OPERATING OCCUPATIONS

This major group includes occupations concerned with operating transport equipment such as aircraft, trains, ships, trucks and buses to move freight and passengers. It includes occupations concerned with providing direct support to transportation of passengers and cargo.

MATERIAL HANDLING AND RELATED OCCUPATIONS, N.E.C.

This major group includes occupations, not elsewhere classified, concerned with moving, lifting, loading and packaging material and products.

OTHER CRAFTS AND EQUIPMENT OPERATING OCCUPATIONS

This major group includes crafts and equipment operating occupations concerned with: operating equipment, such as, printing presses, printing machines used for paper and paper products, bookbinding machines, stationary engines, electric power generators, power stations and utility equipment, radio and television transmitters, motion-picture projectors, and pipeline pumps; and performing skilled-craft activities; such as, photoengraving, recording and reproducing video images and audio sound, and processing photographic film.

APPENDIX B

STANDARD INDUSTRIAL CLASSIFICATION INDUSTRY DIVISIONS, 1981

STANDARD INDUSTRIAL CLASSIFICATION INDUSTRY DIVISIONS, 1981

OCCUPATIONS NOT ELSEWHERE CLASSIFIED

This major group includes occupations that cannot be properly classified in any other major group or relate to more than one major group because of lack of specificity.

AGRICULTURE AND RELATED INDUSTRIES

This Division includes: livestock and animal specialty farms, field crop farms, field crop combination farms, fruit and other vegetable farms, horticultural specialties, livestock, field crop and horticultural combination farms, and service industries incidental to agriculture.

FISHING AND TRAPPING INDUSTRIES

This Division includes: salt water and inland fishing, fish farms, services incidental to fishing, wild fur and skin trapping, and other trapping.

LOGGING AND FORESTRY INDUSTRIES

The logging industry includes establishments primarily engaged in producing round wood. Activities of such establishments involve driving, booming, sorting and rafting, and towing of wood. Barking mills are also included.

The forestry industry includes establishments primarily engaged in gathering forest products; in forestry patrol, fire protection and fire fighting; forest nurseries, reforestation and other forestry services. Forestry farms and timber crop operations are also in the forestry industry.

MINING (INCLUDING MILLING), QUARRYING AND OIL WELL INDUSTRIES

This Division includes: metal mines, non-metal mines such as asbestos, salt or gypsum), coal mines, establishments primarily engaged in the exploration for and/or production of crude oil and natural gas, and establishments primarily engaged in extracting, crushing and screening igneous and sedimentary rocks from quarries.

MANUFACTURING

This Division includes establishments primarily engaged in producing or manufacturing: food products, beverages, tobacco products, rubber products, leather and allied products, primary textiles, textile products, clothing, wood products, furniture and fixtures, paper and allied products, print, primary metal products, fabricated metal products, machinery, transportation equipment, electrical and electronic products, non-metallic mineral products, refined petroleum and coal products, chemicals and chemical products, and other goods such as scientific equipment, toys, jewelry, signs and musical instruments.

CONSTRUCTION INDUSTRIES

Construction industries are composed of three major groups:

i) **Building, Developing and General Contracting Industries,** which includes both residential and non-residential building and development.

ii) **Industrial and Heavy (Engineering) Construction Industries,** which includes industrial construction other than buildings, highway and heavy construction.

iii) **Trade Contracting Industries,** which includes site work, structural work, plumbing, heating, air conditioning and mechanical work, mechanical specialty work, electrical work, exterior close-in work, interior finishing work, and other trade work.

Service industries incidental to construction such as project management and land development are also under the Construction Industries Division.

TRANSPORTATION AND STORAGE INDUSTRIES

Transportation industries are primarily engaged in transportation of goods and passengers by air, railway, water and motor vehicles. Services incidental to such modes of transport are also included.

Storage and warehousing industries are primarily engaged in operating grain elevators, general merchandise warehouses, cold storage and other storage facilities.

COMMUNICATION AND OTHER UTILITY INDUSTRIES

Communication industries are those primarily engaged in providing telecommunications broadcasting and transmission services and those operating postal and courier services.

Other utility industries are primarily engaged in the generation, transmission and distribution of electricity; the distribution of natural gas through a system of mains; the treatment and distribution of water; and in operating other utilities.

WHOLESALE TRADE INDUSTRIES

Wholesale trade industries are primarily engaged in buying merchandise for resale to retailers; to industrial, commercial, institutional, farm or professional business users; to other wholesalers; or in acting as agents or brokers in buying merchandise for, or selling merchandise to such persons or companies on a commission basis. Establishments engaged in wholesale dealing in the following are included in this division: farm products, petroleum products, food, beverages, drugs, tobacco products, apparel and dry goods, household goods, furniture, motor vehicle parts and accessories, metals, hardware, building materials, machinery, equipment, supplies, and other products such as used auto parts, seeds, toys, jewelry and books.

RETAIL TRADE INDUSTRIES

Retail trade industries are those primarily engaged in retail dealing, i.e. buying commodities for resale to the general public for personal or household consumption and in providing related services such as installation and repair. In general, retail establishments are classified by kind of business according to the principal lines of commodities sold and services provided. Establishments range from general merchandise stores and food stores to more specialized stores such as toy stores, jewelry stores and shoe stores.

FINANCE AND INSURANCE INDUSTRIES

This Division consists of five major industry groups:

i) **Deposit Accepting Intermediary Industries,** including banks, trust companies and credit unions.

ii) **Consumer and Business Financing Intermediary Industries,** which are primarily engaged in extending loans to and/or financing equipment, facilities, inventory and sales for businesses and individuals. Consumer loans companies and business finance companies are included in this group.

iii) **Investment Intermediary Industries** are engaged in investing in portfolios of securities and other investments on behalf of their shareholders. Included in this group are establishments primarily engaged in financing mortgages, real estate and purchase leasebacks and holding of common and preferred stock for the purpose of exercising control.

iv) **Insurance Industries** are establishments primarily engaged in underwriting insurance such as life insurance, deposit insurance and property and casualty insurance.

v) **Other Financial Intermediary Industries** are those primarily engaged in operating as security dealers and brokers, mortgage brokers, and security and commodity exchanges.

REAL ESTATE OPERATOR AND INSURANCE AGENT INDUSTRIES

Real estate operator industries include real estate operators and owners, and lessors of real property. Also included in this division are establishments primarily engaged in the selling of insurance and pension products as an independent agent or broker. Independents dealing in real estate activities such as buying and selling for others or managing and appraising real estate for others are in the division as well.

BUSINESS SERVICE INDUSTRIES

This division includes establishments primarily engaged in providing services more to the business community than to the general public. Included in this division are: employment agencies and personnel suppliers; computer services; accounting and bookkeeping services; advertising services; architectural, engineering and other scientific services; lawyer and notary services; management consulting services; and other business services.

GOVERNMENT SERVICE INDUSTRIES

Government establishments which engage in activities also carried out by non-government establishments are classified in the same industrial category as their non-government counterparts. There are three types of government establishments which are not found in the non-government universe and are identified as Government Services. These are:

i) establishments engaged in activities of a purely governmental nature - national defence, public order and safety, immigration services, foreign affairs and international assistance, and general services which involve government activities (i.e. taxation, legislatures, etc.),

ii) establishments which direct, support, control and otherwise administer activities carried on largely, but by no means exclusively, by non-government establishments. These activities can be grouped into those which relate to the maintenance and development of human resources and those whose primary concern is with economic development,

iii) establishments such as small municipalities which may engage in a wide range of government and non-government activities but whose size precludes specific classification for each of these activities.

EDUCATIONAL SERVICE INDUSTRIES

This division consists of establishments primarily engaged in providing formal academic or technical training to students through classroom or correspondence instruction. Libraries, museums and other repositories are included in this division.

HEALTH AND SOCIAL SERVICE INDUSTRIES

This division consists of establishments primarily engaged in operating institutional and non-institutional health and social service facilities, including offices of health and social service practitioners, medical and other health laboratories; health and social services associations and agencies.

ACCOMMODATION, FOOD AND BEVERAGE SERVICE INDUSTRIES

This division consists of establishments primarily engaged in (1) operating hotels, motor hotels, motels, tourist courts, cabins, guest houses and tourist homes (2) operating restaurants, take-out food and catering services (3) selling alcoholic beverages for consumption on the premises.

OTHER SERVICE INDUSTRIES

Establishments primarily engaged in operating amusement, entertainment or recreational facilities are classified in this division. Examples in this division include movie theaters, theatrical entertainment, sports clubs, race tracks, bowling alleys and video game arcades.

APPENDIX C

SURVEY QUESTIONNAIRE

Nova Scotia

Department of Advanced Education and Job Training

1991 Graduate Follow-Up Survey

— 1990 Community College Graduates —
— 1990 University College of Cape Breton Trades and Technical Graduates —

ALL RESPONSES WILL BE KEPT STRICTLY CONFIDENTIAL. AT NO TIME WILL YOUR NAME BE REVEALED.

CHARACTERISTICS

1. 01 AGE ☐☐ years 03 SEX 1 ☐ male 2 ☐ female

PREVIOUS EDUCATION/EMPLOYMENT

2. Indicate the highest level of education you successfully completed before attending the institution you graduated from in 1990.

04
- 1 ☐ Grade 9 or below
- 2 ☐ Grade 10
- 3 ☐ Grade 11 (or G.E.D. 11)
- 4 ☐ Grade 12 (or G.E.D. 12)
- 5 ☐ Some university
- 6 ☐ University degree completed
- 7 ☐ Other courses completed (ie. College or Business School) Specify program/course

_____

3.a) In total, approximately how many months have you been employed since you graduated in 1990?

05 ☐☐ months

3.b) Approximately how many of the months above were you employed in work which was related to the training you received? (Work "related" to training may be directly and/or indirectly related.)

07 ☐☐ months

3.c) Were you in receipt of U.I. Benefits or a Federal Training Allowance while attending the program that you graduated from in 1990?

09 1 ☐ YES 2 ☐ NO

4. WERE YOU EMPLOYED DURING THE WEEK OF JUNE 23 - JUNE 29, 1991?

10
- 1 ☐ YES ▶ ANSWER THE QUESTIONS IN PART A ON PAGE 2 AND PART C ON PAGE 4.
- 2 ☐ NO ▶ ANSWER THE QUESTIONS IN PART B ON PAGE 3 AND PART C ON PAGE 4.

PART A - EMPLOYED

(THESE QUESTIONS ARE TO BE ANSWERED ONLY BY THOSE EMPLOYED DURING JUNE 23 - JUNE 29, 1991)

THE FOLLOWING QUESTIONS PERTAIN TO YOUR JOB HELD DURING THE WEEK OF JUNE 23 - JUNE 29, 1991.

— if two or more jobs were held during this period, choose the one that is most related to your training or that involves the most hours per week.

5. 11 Was your job
1 ☐ Permanent (without a known termination date)
or
2 ☐ Temporary (ending after a given period)

6. Could you have obtained your job if you had not taken your training program?

12 1 ☐ Yes 2 ☐ No 3 ☐ Don't know

7.a) To what extent do you feel your job was related to the training you received from the institution you graduated from in 1990?

13 1 ☐ Directly related ▼ GO TO QUESTION 8
2 ☐ Indirectly related ▼ GO TO QUESTION 8
3 ☐ Not related

7.b) If your job was not related to your training, indicate the most important reason why. (Check one only)

14 1 ☐ Did not look for a training related job
2 ☐ Could not find a training related job
3 ☐ Had a job using my training but it did not work out
4 ☐ Can earn more money at other work
5 ☐ My training was not adequate to qualify me for a job in my field so I took other work
6 ☐ Other reason(s)
Specify _____

8. In general, how satisfied would you say you were with your job?

15 1 ☐ Very satisfied 2 ☐ Somewhat satisfied 3 ☐ Not very satisfied

9. Please complete the following information about the job you held during June 23 - June 29, 1991.

a) Occupation _____

b) Duties _____

c) Employer _____

d) Type of industry, business or service (please use at least two words to describe ie. restaurant food service instead of service)

_____

e) Location of employment (city, town, or village) _____

County _____

Province _____

16 f) Average number of hours worked per week ☐☐ hours

18 g) Number of weeks you were working at this job ☐☐ weeks (number of weeks = start date until June 29, 1991)

20 h) Approximate hourly wage
1 ☐ $4.50 to $6.50 per hour
2 ☐ $6.51 to $8.50 per hour
3 ☐ $8.51 to $10.50 per hour
4 ☐ Over $10.50 per hour

GO TO PART C

PART B - NOT EMPLOYED

(THESE QUESTIONS ARE TO BE ANSWERED ONLY BY THOSE WHO WERE NOT EMPLOYED DURING JUNE 23 - JUNE 29, 1991)

5.a) Did you have a job to start after June 29, 1991?

21 1 ☐ Yes 2 ☐ No

5.b) What is the main reason why you were not working during June 23 - June 29, 1991? (Check one only)

22 1 ☐ Looking but could not find suitable employment

2 ☐ Waiting for recall after layoff

3 ☐ No longer interested in finding work ▶ Go to Part C

4 ☐ Illness or disability ▶ Go to Part C

5 ☐ Personal or family responsibility ▶ Go to Part C

6 ☐ Attending school ▶ Go to Part C

6. If you were looking for work during June 23 - June 29, 1991, indicate the two most important reasons why you believe you were unemployed.

	Most Important Reason (Check one only)	Second Important Reason (Check one only)	
23-24	1 ☐	1 ☐	Not enough jobs available
	2 ☐	2 ☐	Not enough jobs available where I can use my training
	3 ☐	3 ☐	Available jobs require more work experience than I have
	4 ☐	4 ☐	Jobs with suitable pay not available
	5 ☐	5 ☐	Unable or unwilling to leave the area
	6 ☐	6 ☐	Training is not adequate to meet requirements of available jobs
	7 ☐	7 ☐	Not in Union
	8 ☐	8 ☐	Other reason(s) Specify _____

7. Indicate the area(s) where you actively searched for employment since you graduated in 1990?

25 1 ☐ In the area where I live (within 50 km of place of residence)

26 2 ☐ Halifax Metro area

27 3 ☐ Throughout Nova Scotia

28 4 ☐ Throughout the Atlantic provinces

29 5 ☐ Other provinces in Canada

30 6 ☐ Throughout Canada

8. Approximately what hourly starting wage do you expect to be paid for employment?

31-34 $ _____ per hour

Go to Part C

PART C - PROGRAM EVALUATION

(THESE QUESTIONS ARE TO BE ANSWERED BY ALL RESPONDENTS)

1. Do you feel that the length of your course/program should have been

35 1 ☐ Longer 2 ☐ Same length 3 ☐ Shorter

2. Overall, would you say that the subject material covered in your course/program was

36 1 ☐ Up to date 2 ☐ Out of date, please specify _____

_____

3. Were the classroom/laboratory/workshop facilities and equipment adequate?

37 1 ☐ Yes 2 ☐ No, please specify _____

_____

4. Overall, was the instruction

38 1 ☐ Very good 2 ☐ Good 3 ☐ Fair 4 ☐ Poor

5. If there is one thing you could change about the content of your course/program, what would that be?

_____

IF YOU HAVE ANY ADDITIONAL COMMENTS OR SUGGESTIONS PLEASE USE THE SPACE PROVIDED BELOW.

APPENDIX D

CONFIDENCE LEVELS

CONFIDENCE LEVELS

CONFIDENCE LEVELS

This appendix describes a methodology for assessing the confidence levels for program results which appear in this report. The conditions of the survey frequently allow for reasonable accuracy in the published results despite a small-sized sample in several cases.

METHODOLOGICAL CONSIDERATIONS

It is important to observe at the outset that the possibility of error in small samples is substantially offset in the Follow-up Survey by the similarly small populations involved. Thus it cannot always be concluded that a small sample leads to a high probability of substantial sampling error. Although small sample size is a factor governing the width of a confidence interval, reasonably accurate survey estimates can still be achieved in many (if not most) cases, when a high proportion of the population is contained in the sample. Second, it should be stressed that a confidence interval derived from the usual statistical techniques assumes that sampling error is random. This assumption is unlikely to hold for the Follow-up Survey because the reasons for non-response to the survey may be tied to a graduate's ability (or inability) to obtain suitable employment. It could be, for example, that a graduate feels ashamed or bitter about not being able to find career-related employment (or any employment), and therefore, does not choose to respond to the survey. Despite this methodological concern, the assumption of randomness is made and indeed is undertaken in most socio-economic research.

CONFIDENCE INTERVAL CALCULATING FORMULAS

The survey results in the publication are essentially presented as percentages of respondents having various characteristics. For the purpose of discussion, it is taken that the characteristic under scrutiny is whether or not the graduates of a community college training program are employed. Literature indicates that a small-sample confidence interval about a percentage indicator can be determined by using the statistical formula:

$$P \pm t\sqrt{\frac{PQ}{n}} * \sqrt{\frac{N-n}{n-1}}$$

Where:

- P is the proportion about which the confidence interval is being constructed. For example, if one-half of the survey respondents were employed P would equal 0.5 (or 50%).
- Q is the complement of P, or Q = 1 - P
- n is the sample size
- N is the population size
- t is the Student's 't' statistic, with the appropriate error level and n - 1 degrees of freedom.

In addition to this statistics-based confidence interval, a "practical" confidence interval which has a 100% certainty range requires utilization. This practical confidence interval can be illustrated by way of example.

Assume that a program has 12 graduates or a population of 12. In a sample of 10 of these graduates (i.e. there are two non-respondents), 7 are employed (70%) and 3 are unemployed (30%). Thus, from this sample the employment proportion is estimated at 70%. The maximum that the *employment proportion* could be in error is if the two nonrespondents are both employed or both unemployed. If the two nonrespondents were both employed, then 9 (7 + 2) of the total graduates would have found work; this represents an *employment proportion* of 75% of the graduates. Alternatively, if they were both unemployed, the employment proportion would be 58%. (See formulas below.)

$$\text{Employment Proportion (If two nonrespondents are both employed)} = \frac{\text{\# employed}}{\text{\# in population}} \times 100 = \frac{7+2}{12} \times 100\% = 9/12 \times 100\% = 75\%$$

$$\text{Employment Proportion (If two nonrespondents are both unemployed)} = \frac{\text{\# employed}}{\text{\# in population}} \times 100 = \frac{12-(3+2)}{12} \times 100\% = 7/12 \times 100\% = 58\%$$

As a practical matter, therefore, the confidence interval about the 70% sample-estimated employment mean must range between 58% and 75%.

In comparison, at the 90% confidence level, the statistical confidence limit is calculated to be ± 12% (58% and 82%). Clearly, the practical confidence limit is superior to the statistical confidence level whenever the practical confidence interval is narrower, whether at the top or bottom range (or both).

The methodology used to determine confidence levels for programs in this report involved a combination of the statistical calculation and practical calculation to obtain the narrower limits. Programs for which statistics are reported in the Program Statistics section fall within the 90% ± 15% confidence level, meaning that nine times out of ten the actual percentage for a given variable (i.e. employment) is within 15 percentage points of the proportion calculated on the basis of survey responses. The statistics for those programs that do not fall within the 90% ± 15% confidence level are included at the end of this Appendix.
